

Learn Git Branching

Hide Goal

Level Reversing Changes in Git

Instructions

```
$ level rampup4
$ hint
Notice that revert and reset take
different arguments.
$ delay 2000
$ show goal
```

Goal To Reach

You can hide this window with "hide goal"

The goal diagram shows the sequence of commits and branches to reach the goal state. It starts with **c0**, followed by **c1** (with **main** and **local** branches), then **c2**, and finally **c3** (with **pushed*** branch).

Great Job!!!

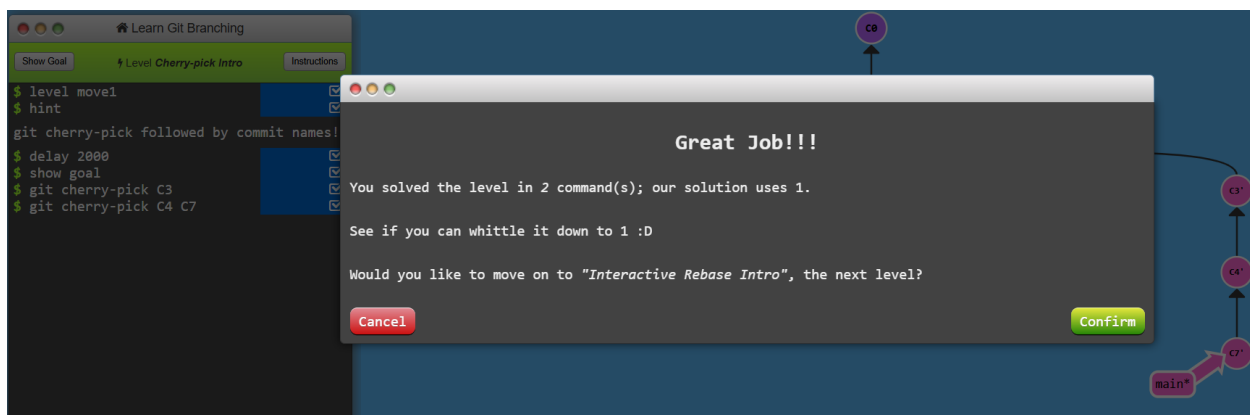

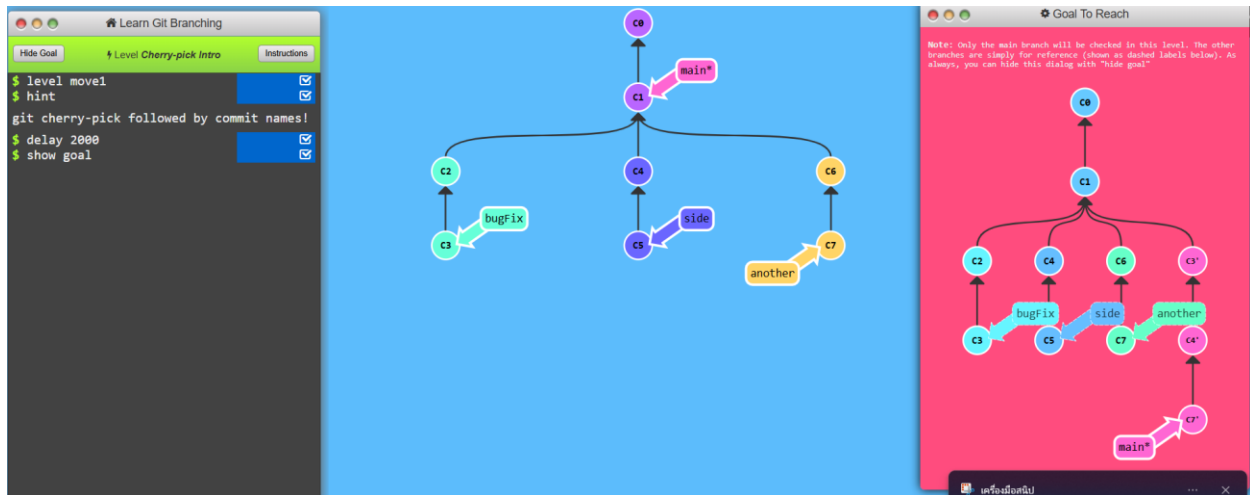

You solved the level in 3 command(s); our solution uses 3.

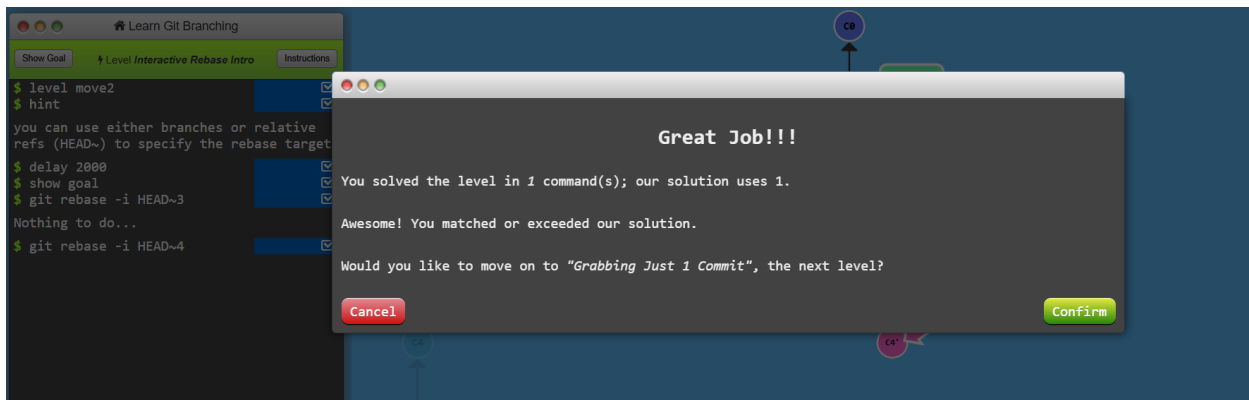

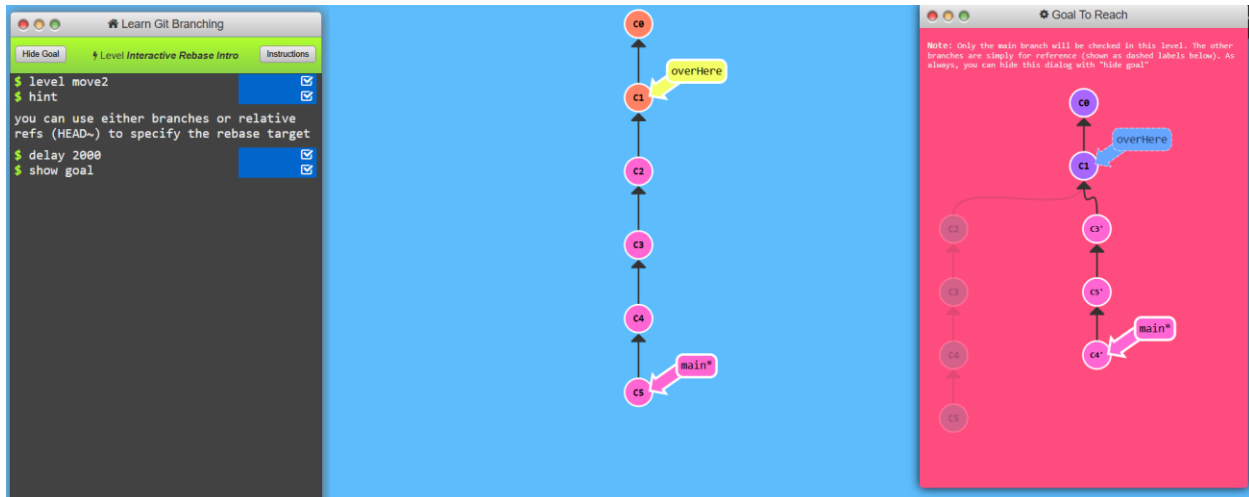

Awesome! You matched or exceeded our solution.
